PROFESSIONAL SUMMARY

Final-year B.Tech CSE (AI/ML) student with hands-on experience developing full-stack and frontend web applications. Experienced with JavaScript, React.js, Node.js, Express.js, REST APIs and MongoDB, with practical exposure to authentication, database operations, responsive UI development, Git/GitHub, debugging and deployment. Interested in software engineering, problem solving and building reliable web applications.

TECHNICAL SKILLS

Programming: JavaScript, Java, C, SQL
Web Development: HTML, CSS, React.js, Bootstrap, Node.js, Express.js, REST APIs, EJS
Database: MongoDB, MySQL/SQL
Tools & Practices: Git, GitHub, VS Code, REST API development, debugging, responsive design
Core CS: Data Structures & Algorithms, OOP, DBMS

EDUCATION

Bachelor of Technology – Computer Science & Engineering (AI/ML) | COER University | 2023–2027 | CGPA: 8.52/10
Senior Secondary (CBSE – PCM) | Imperial International School | CGPA: 7.8

DSA & PROBLEM SOLVING

Completed the DSA with Java course/certification from Apna College; currently practicing Data Structures and Algorithms using Java.
LeetCode: Profile

PROJECTS

QuickStay – Full-Stack Accommodation Booking Platform
- Developed a full-stack accommodation platform using Node.js, Express.js, MongoDB Atlas and EJS for creating, browsing, updating and managing listings.
- Built RESTful APIs for user and listing operations, integrated MongoDB for data storage, and implemented authentication using Passport.js.
- Developed a responsive interface using Bootstrap and deployed the application on Render. [GitHub]

Spotify Clone – Frontend Music Application
- Developed a responsive music-streaming interface using HTML, CSS and JavaScript with playlists and playback controls.
- Implemented play, pause and seek interactions while focusing on responsive design and user experience. [GitHub]

Simon Says Game
- Built a browser-based memory game using HTML, CSS and JavaScript with dynamic sequence generation and event-driven game logic.
- Added interactive animations and responsive behavior to improve user engagement. [GitHub]

Student Placement Portal- Front-End Web Application
- Developed a responsive placement portal using HTML and CSS with company listings, job opportunities, placement statistics and application features.
- Designed multiple responsive pages including login/registration, dashboard, FAQ and contact sections. [GitHub]

INTERNSHIP EXPERIENCE

Web Development Intern – CodSoft Pvt. Ltd.
- Designed responsive web interfaces using HTML, CSS and Bootstrap.
- Worked with GitHub for version control and debugging, with focus on responsive UI and practical web development.

ENGINEERING PRACTICES & ACHIEVEMENTS

- Hands-on use of Git/GitHub, debugging, REST APIs, responsive UI development and deployment through academic and personal projects.
- Developed 3+ academic and personal projects demonstrating practical software development and problem-solving skills.
- Maintained a CGPA of 8.52/10 throughout B.Tech.

CERTIFICATIONS

DSA with Java — Apna College
Delta Full Stack Web Development — Apna College
